Formal Water Features

Introducing our new line of
FORMAL MARBLE WATER FEATURES uniquely and elegantly
designed to complement modern rectangular pools.

Award Winning Formal Marble Water Features

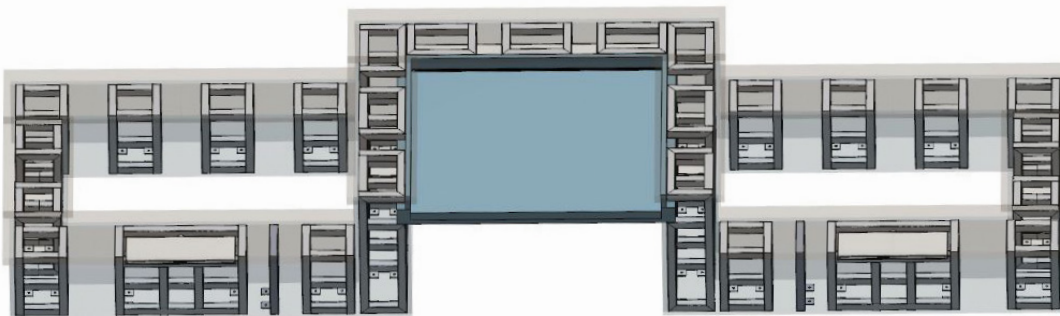

Aquatic Artists has *ROCKED* the waterfall design and construction business for 20 years now, and we're continuing to innovate to meet the diverse trends in pool designs in crafting our waterfall masterpieces!

Introducing our new line of FORMAL MARBLE WATER FEATURES uniquely and elegantly designed to complement modern rectangular pools. Our formal water features are beautiful and crafted to stand the test of time.

We have invested thousands of hours of engineering, product development, adhesion characteristics evaluation, and testing to ensure this product meets required movement and thermal expansion coefficients, and resists corrosion.

Its features and benefits include:

- Use of authentic European marble that showcases the unique grains and textures of this extraordinary material.
- Incredibly flexible designs constructed with high strength marine grade aluminum that are fully customizable to enhance any space or amplify any pool.
- Easily adaptable for further enhancement such as lights, fire, and other high end features.
- In-house custom fabrication with in stock materials that can be seamlessly installed in less than a week, causing no damage to your property.
